Sherman Experiment Station Field Days Planned

The Sherman Experiment Station field day is planned for Wednesday June 13. Oregon State University and USDA Agricultural Research Service are co-hosting this field day for the agricultural community. Anyone with an interest in agriculture is encouraged to attend.

Registration begins at 7:00 a.m. at the Sherman County Fairground tours begin at 7:25 a.m. The fairgrounds are one mile south of Moro on Lonerock road. The field day features presentations by university and ARS scientists. Tours include presentations on returning CRP land to crop production, nematode management in wheat, wheat disease management, wheat seed germination, stripe rust, and club and common wheat varieties.

A new building dedication will take place at 11:00 a.m. with presentation by Dr. Dan Arp, newly appointed OSU Dean of Agricultural Sciences, Dr. Scott Reed, OSU Vice-Provost of Outreach and Extension and Gary Thompson, Sherman County Judge. A hosted lunch is provided at 12:00 a.m. The field day concludes at 12 noon with a hosted lunch. Visit <http://cbarc.aes.oregonstate.edu/> to see a detailed program. Call 541-278-4186 for more information.
